The New COD 10/10 would play again. i cannot get this game to play ... I was starting to get bored with VR, as I couldn't find any proper games with Depth.

My favourites were kittypocalypse, and robots revenge, but they didn't have much long playability, and I'd kinda done them.

This has many, many hours of gameplay and learning and challenges, and I'm really quite excited about the struggle to become self sufficient.

And then I can relax. :-). Complete garbage.. Fractal is a puzzle game where you push hexagons a row to make a hexagon bloom. Maybe I didn't play it enough but making combo's just feels more luck based than skill. I guess the game is fine if you are looking for another puzzler. But there are puzzle games with a more fun mechanic out there. Also what worth mentioning is that save games are stored in the registry and it has no cloud save.. this game was really fun, and good for the price, sadly it only took me 4+ hours, so i would love it if it was alittle longer, but i recommend this game. :D. Very good marble rolling game. Good physics and good level design/. The only purpose of this type of experience would be education and this isn't educational. If you're making an experience about a real place it should be accurate. While the size of the tomb felt right, the contents in it were all very inaccurate. The "Information" elements were also very uninformative. It didn't make it fully clear what they were talking about and the narration overall didn't feel passionate or make you want to listen to it.

. There's a decent core gameplay idea here. But it's layered under horrible controls (think "A Boy and His Blob" meets "Prince of Persia"), game-breaking bugs, unnecessarily obnoxious level design, and atrocious dialogue. It's not worth wading through the bad to get to the good in this case.

I have only played 30 minutes and I really enjoy this game. Its very basic game with basic graphics which is fine for me. It's a breath of fresh air from all these games that are out now. I like the music and the challenge of the game. Yes, I am horrible at this game but I got better over time. There are obstacles in the game that you should avoid and interesting on what items you use to play in the game> i just found overall its just a fun game to play and not take to serious. A++++

<https://www.youtube.com/watch?v=8HC83fz9bDc>. Death's Hangover is a arkanoid style ball'n'bat game with unique mechanics.

Pros:

- + Game mechanics: Lots of innovation to the genre
- + Jokes
- + Nice artstyle
- + Fun

Neutral:

- ~ Sfx and soundtrack is a bit shallow

Cons:

- None

8/10 Its a little gem. If you want a fun, innovative ball'n'bat game with a retro look, this is it.. While the game itself is fun, it's a horrible port. It's definately gamepad focused so there's no excuse why the menues can't be controlled with a gamepad. It's also very poorly optimized.

Don't buy this, buy the excellent Trials Evolution instead, which is a far better game and has all the things this game is missing.. No! Absolutely no! This game is so d*mn difficult, especially for a non-native english speaker. The riddles make no sense to me, even with using walkthroughs. Maybe I'm not intelligent enough. Doesn't matter... I hate it.. A tad more diverse than the main game and the boss battle is quite enjoyable. Worth getting it if you enjoyed the main game.
